Re: Docket # SW-03067A-06-0397

Dear Commissioners:

We are writing to comment on the above referenced docket item. We live within V2 mile of the construction project site. We hope that the commission requires a wastewater system that will be up to the State Standards required of a subdivision with a density of 5+ houses per acre as this project is. The area around this 160- acre project is rural, with no one living on less than one acre. We hope the commission looks at the big picture of the area and makes sure that the wastewater system Mr. Frisby wants to provide will not impact and contaminate the ground water we use for domestic and drinking water. Historically, Developers will not spend money that don't have to, so please do not let economics play a part in having a safe, State Standardized wastewater treatment plant. This should insure the safety and well being of the families living in Scenic, Arizona.

Thank you for your time and consideration.

Sincerely, -
Glen and Melani Kaupas
